UNIVERSITY

3rd ICOHEMA 2022

Current trends in Strategic Health Management, Leadership and Business Intelligence

The **International Hellenic University** in cooperation with the **University of Thessaly** are hosting and organizing the third International Conference on Health Management (ICOHEMA 2022) that will take place via zoom platform, the 18th – 20st of March 2022, with no registration fees for the participants.

The overall conference theme is “**Current trends in Strategic Health Management, Leadership and Business Intelligence**”.

The **deadline for submission of abstracts** to any research track is the **20th of February 2022** and this is a strict deadline. If you wish to submit your work and participate at this great event, please make sure you submit your abstract until the **20th of February** at submission@icohema.com

Conference Theme

It is essential for the healthcare organizations to have access to information that is crucial for evidence-based decision making. Business Intelligence (BI) systems implementation to deliver decision-support information provides value and the specific framework for the patients’ management. Strong management support, right skill sets and an information-oriented culture is the key player for establishment the new reality.

Moreover, healthcare organizations are under ever increasing pressure to do more with less and are continuously seeking ways to ensure that resources are deployed as efficiently as possible while ensuring high quality patient care. Information is essential to meeting these goals – it has been referred to as the lifeblood of healthcare as it is essential for effective clinical and administrative decision making.

Conference Information

The 3rd ICOHEMA 2022 International e-Conference is hosted and organized by the **International Hellenic University** in cooperation with the **University of Thessaly**. The units responsible for the Conference organization are the Program of Postgraduate Studies (Master of Science) in Management of Health and Welfare Units and the Nursing Department, School of Health Sciences, respectively.

The state-of-the-art conference program includes a) a high-quality scientific research track with refereed paper presentations, b) cutting-edge keynote speakers and roundtables from the academia, and the public sector, c) a student paper presentation track and a PhD workshop.
